Review of manuscript COST-D-21-00003 - "Degree Selection Methods for Curve Approximation via Bernstein Polynomials". by Juliana F. M. Silva, Vinícius D. Mayrink and Sujit K. Ghosh.

Dear Editors of *Computational Statistics*, we would like to thank the two anonymous referees for their constructive comments and suggestions. Below, we address all points raised in their reviews.

Point-by-point reply to the Referee 1:

(1) *Copy and paste the 1st point raised by the reviewer here.*

Write your response here. Try to be polite... include "thank you for your suggestion" whenever you feel is necessary. Clearly indicate the location in the paper where a modification was inserted to answer this point.

(2) *Copy and paste the 2nd point raised by the reviewer here.*

Write your response here. Try to be polite... include "thank you for your suggestion" whenever you feel is necessary.

(3) *Copy and paste the 3rd point raised by the reviewer here.*

Write your response here.

(4) *Copy and paste the 4th point raised by the reviewer here.*

Write your response here.

(5) *Copy and paste the 5th point raised by the reviewer here.*

Write your response here.

(6) *Copy and paste the 6th point raised by the reviewer here.*

Write your response here.

(7) *Copy and paste the 7th point raised by the reviewer here.*

Write your response here.

(8) *Copy and paste the 8th point raised by the reviewer here.*

Write your response here.

Point-by-point reply to the Referee 2:

(1) *Copy and paste the 1st point raised by the reviewer here.*

Write your response here. Try to be polite... include "thank you for your suggestion" whenever you feel is necessary.

(2) *Copy and paste the 2nd point raised by the reviewer here.*

Write your response here.

(3) *Copy and paste the 3rd point raised by the reviewer here.*

Write your response here.
